Entanglements brings 'The Murray' to landscaped gardens

Introducing the Murray to the Botanical Range

- Chance to sit on your deck and watch the sun set over 'The Murray'
 - Be absorbed with all its' history, abundance of jumping fish and bird life...
 - Make a statement in your landscaped garden or outdoor living space:
- Priced per standard metal wall art size 2300xH1200mm with 50mm folded sides (or custom POA)
 - Custom-design flexibility or choose from our existing range
 - Variation of installation types to suit existing spaces.
 - Top hanging lip for simple installation
 - Natural Rust finish, or select a Dulux / Interpon powder coat colour
 - Powder coated options have a zinc plated undercoat
 - Made of intricate laser cut steel. Built to last

Entanglements custom make metal sculptures, decorative screens, water features, fire pits, pergolas, trellises, in fact, almost anything you can imagine.

Clients often approach them with a rough idea, a sketch, or a photo of a space that needs help and Entanglements' in-house designers work with them to realise their vision. They're pretty impressive when given artistic freedom too. Their aesthetic judgment and meticulous workmanship have garnered a swag of accolades, including gold medals at the Melbourne International Flower & Garden Show.

If you need a focal point for your garden, to add texture to landscaping, or to inject personality into a space, perhaps it's time to get into heavy metal. A great place to start is with the range of Entanglements creations available off-the-shelf. A visit to their Ormond showroom or online store is highly recommended.
